Shelving units with rear tapered corner

Bandeja con laterales recortados

In order to install the shelves as near as possible to the van wall, maximising on space, some shelves have tapered rear corners.

Con el fin de instalar las bandejas lo más cerca posible a la pared de la furgoneta, maximizando el espacio, algunos laterales tiene recortados las puntas superiores traseras.

Shelving units for Fiat Doblò 2000

Bandejas especiales para Fiat Doblò 2000

Given the particular shape of the left wheel housing (driver's side) on the Fiat Doblò, we have developed a specific solution to maximise storage space. This consists of a side panel with a 353 mm or 310 mm depth mounted with a shelving unit 260 mm or 216 mm deep.

Dada la forma particular del paso de rueda izquierdo (lado del conductor) en la Fiat Doblò, hemos desarrollado una solución específica para maximizar el espacio de almacenamiento. Este consiste en un panel lateral con un 353 mm o 310 mm de profundidad montada con una unidad de bandeja de 260 mm o 216 mm de profundidad.
